One source for all your business needs

Environmentally Conscious and User-Friendly Design Simplifies Everyday Use

To get ahead in today's ruthless business world, you need to work smarter — not harder.

Superior document management is just one of the many ways that the AR-M351U/N can take your business to new heights and liberate your workplace like never before. Powerful copy, print, and scan capabilities streamline document workflow across your entire network with amazing speed and efficiency, letting you accomplish far more in less time. In addition to advanced, user-friendly software for workflow control and document filing for convenient storage, the AR-M351U/N's industry-leading security solutions protect your confidential information on multiple levels. And, a fully modular design and choice of software utilities mean that you get the optimum solution for your individual office needs.

Packed with a range of high-performance features, the AR-M351U/N will put you on the fast track to business success.

DOCUMENT SECURITY P. 7
SYSTEM CONFIGURATION P. 8
SPECIFICATIONS back cover

User-Friendly Design

Operation panel for the AR-M351N and AR-NC8-equipped AR-M351U

User-Friendly Touch-Screen LCD

The AR-M351U/N's logically designed control panel features a wide, clear touch-screen LCD panel with easy-to-follow guidance. For example, when adjusting the edge/centre erase function, the LCD displays step-by-step animated instructions to guide you through the necessary procedures.

Easy Printer Control

The printer driver gives you clear and easy control of print jobs thanks to a simple, easy-to-understand GUI (graphical user interface). Simply click the appropriate icons or check boxes and print your document just the way you want it.

Network Utility Software

(Windows® only)

The **Printer Administration Utility** makes printer networks easier to manage by allowing network administrators to customise monitored items and view settings such as the IP address directly from their PC. And with the **Printer Status Monitor**, network users can easily check printer conditions on their PC screen, such as paper and toner levels.

Universal Design

Based on the concept of **universal design**, the AR-M351U/N has features that make it user-friendly for everyone, including absolute beginners or the physically challenged.

- Easy-to-press and -feel indented keys
- Adjustable notification sounds for manual settings (zoom, exposure, etc.)

Environmentally Conscious Design

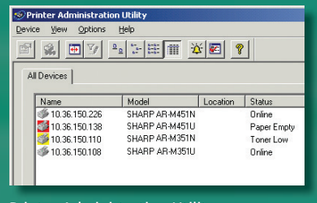
Energy Saving

Conforming to the **Energy Star** programme, an international system that identifies energy-efficient products, the AR-M351U/N has two **energy-saving modes** to reduce running costs as well as environmental burden.

Feedback Process Control

This system periodically monitors actual toner density and automatically makes adjustments to maintain image quality over a long period of time. This ensures consistent quality and **minimum paper waste**.

Printer driver screen



Printer Administration Utility

Printer Status Monitor

Concaved keys

COPYING AND PRINTING

Productive Copying and High-Performance Network Printing

Producing high-volume jobs with amazing speed, simplicity, and superb image quality, the AR-M351U/N's high-speed RISC processor, productivity-enhancing options, and advanced printing functions make even complex jobs with sophisticated finishing options efficient and easy.

Quick First Copy Time

COPY

The AR-M351U/N has a quick first copy time of **4.9 seconds** to save valuable time when performing multiple short-run jobs.

First copy time

Super-Efficient Output

COPY PRINT

With a continuous output of **35 cpm/ppm***, the AR-M351U/N allows you to produce large-volume documents in less time.

*A4 (8 1/2" x 11") size, portrait

High-Speed Processor

PRINT

The AR-M351U/N comes with a high-speed RM7065 64-bit RISC processor (300 MHz), which allows even memory-intensive graphic documents to be processed promptly and ensures speedy and efficient printing in the networked office.

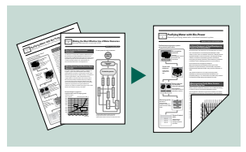
A3 Duplex Single Pass Feeder (DSPF)

COPY

The AR-M351U/N can be equipped with an optional DSPF, which **scans both pages** of two-sided documents **up to A3** (11" x 17") in size in one pass. Doing away with the reversing circuit minimises paper misfeeds and vastly improves reliability. With a quick scanning speed of 60 pages per minute for two-sided originals and 37 pages for single-sided in Standard mode, the AR-M351U/N finishes even large projects quickly.

Duplex Copying/Printing

COPY PRINT



The AR-M351U/N can make **two-sided copies and printouts** when equipped with the optional duplex module or duplex module with bypass tray, effectively reducing paper costs as well as saving filing space. Duplex copying is even more productive when used together with the DSPF.

Superb Image Quality

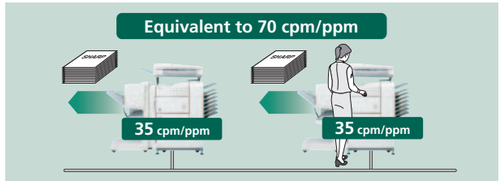
COPY PRINT

You get ultra-detailed reproduction with 600 dpi resolution. The printing resolution can be enhanced to **1,200 dpi** (with smoothing). Digital Auto Exposure Control provides optimum copy contrast, and Text/Photo mode automatically adjusts the copy contrast for documents containing both text and photos.

Network Tandem Function

COPY PRINT

When two AR-M351U/Ns are connected to the same office network, you can use both simultaneously to double copying/printing output to up to **70 cpm/ppm**. Operation is simple and the machines can even be in different locations. With just a few keystrokes, you can handle large-volume jobs to meet tight deadlines.



Job Build for Large-Volume Scanning

COPY SCAN

The AR-M351U/N easily handles copy jobs exceeding the DSPF's 50-sheet capacity*1. Large-volume documents of up to 10,000 pages*2 are automatically stored on the AR-M351U/N's hard disk so that users can print all documents at once at a later time.

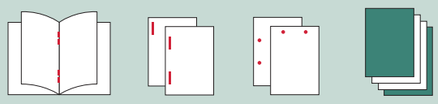
*1: A4 (8 1/2" x 11") size
*2: Measured using Sharp's standard chart (A4 size with 6% coverage). The number of pages that can be saved for the Job Build function depends on the AR-M351U/N's memory capacity and other conditions.

Automated Job Finishing

COPY PRINT

The AR-M351U/N makes it easy to create professional-looking documents automatically. The optional **Saddle Stitch Finisher** folds and staples sets of documents to make completed booklets. A **Finisher** is also available for jobs that require only simple sorting and stapling. And, a **Punch Module** allows you to punch holes in documents for easy filing. These high-performance finishing capabilities save you valuable time and money by reducing costly outsourcing.

A Variety of Job Finishing Options



Note: Network print function is standard on the AR-M351N, but the AR-M351U requires the optional AR-NC7 or AR-NC8 Print Server Card.

Large Paper Capacity

COPY PRINT

For large-volume jobs and a wider selection of available paper sizes, the AR-M351U/N can accommodate optional paper drawers for an on-line 4-way paper feed with a capacity of up to **3,100 sheets**. When a tray runs out of paper, the **Auto Tray Switching** function automatically switches to another paper tray filled with the same size paper. This allows you to do extra-large volume jobs without worrying about running out of paper.

PCL6 and PostScript 3 Emulation

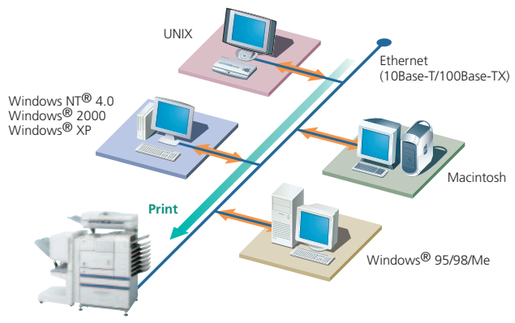
PRINT

The AR-M351U/N supports PCL5e and PCL6 printer languages. For compatibility with PostScript 3, the AR-PK6 PS3 Expansion Kit is available.

Powerful Network Printing

PRINT

The AR-M351U/N works as a network printer with the most commonly used network operating systems and protocols and even in mixed network OS environments. With a 64-bit, 300 MHz CPU, you get powerful network printing via 100Base-TX and 10Base-T Ethernet standards.



Priority Printing

PRINT

In Job Status mode, the operation panel displays a list of all jobs, whether printing, copying, or scanning. See at a glance which job is in progress and where your job is in the queue. You can also **change the print queue order** with one touch of the LCD screen. Urgent jobs can receive priority, meaning you don't have to wait until other jobs are finished.

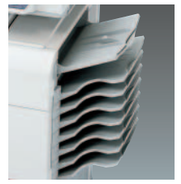
Bypass Printing

PRINT

When conventional printers run out of the paper needed for a specific job, the machine stops until it is reloaded. With the AR-M351U/N, however, you never need to wait on someone else's job; the AR-M351U/N automatically **proceeds to the next possible job** in the queue.

Mail Bin Stacker

PRINT

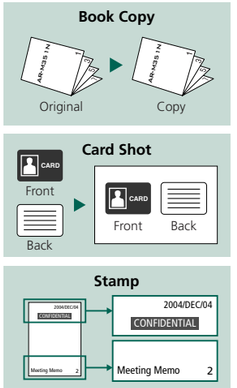


The optional Mail Bin Stacker is ideal for offices where large groups of people use the same machine. When printing, avoid mixing up your documents with those of other users by pre-selecting one of **seven destination bins** for your documents.

Convenient Copy Applications

COPY

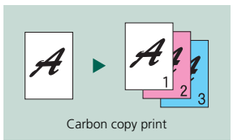
- **Book Copy** is convenient for compiling copies of a book or bound originals into pamphlet format.
- **Card Shot** enables one-touch copying of both sides of a card (credit cards, ID cards, etc.) onto a single page.
- **Stamp** labels your copy with entered text, page numbers, the date, or a reverse character set such as "CONFIDENTIAL".



Various Printing Functions

PRINT

- With **PDF/TIFF Direct Print**, you save valuable time by printing PDF and TIFF files without using the printer driver or opening applications: you can print the file directly from an FTP server (pull print), a Web page (push print), or an e-mail attachment.
  Note: Direct PDF printing requires the optional AR-PK6. Certain types of TIFF and PDF files may not print out this way.
- **Carbon Copy Print** mode automatically outputs multiple printouts of the same data on plain and/or coloured paper from different paper trays. Convenient for multi-print invoices and purchase orders.



- **Proof Printing** allows you to check a trial set before printing out in large numbers to avoid printing mistakes.
- **Barcode font** compatibility (with the optional AR-PF1 Barcode Font Kit)

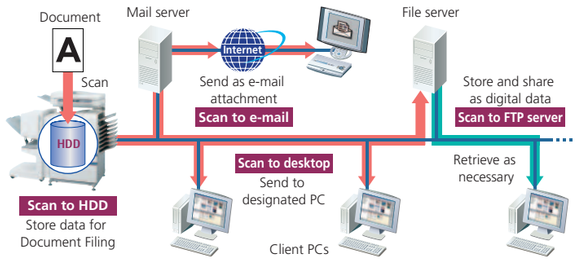
NETWORK SCANNING

Powerful Network Scanning and Integrated Document Management

Bring a whole new level of workflow efficiency to your office with powerful network scanning that provides direct four-way distribution (to E-mail, Desktop, FTP Server, and HDD) of scanned documents, and with Sharpdesk™ document management software that lets you integrate files regardless of format.

A3 Network Scanning

The 50-sheet DSPF and optional AR-NS3 Network Scanner Expansion Kit turn the AR-M351U/N into an ultra-efficient network scanner. With the touch of a few buttons, you can choose one of four ways to distribute your scanned documents. **Scan to HDD** sends scanned images to the AR-M351U/N's hard disk to use in the Document Filing function (see page 6). **Scan to E-mail** allows you to send documents as an attachment to any e-mail address over the Internet. You can easily enter an e-mail subject title or file name from the touch-screen LCD. **Scan to FTP Server** lets you scan a document directly to an FTP server for special applications such as company-wide posting or archiving. **Scan to Desktop** enables you to send scanned documents directly to your computer desktop. And with Sharpdesk™ (see below), Sharp's powerful but easy-to-use document management software, editing and managing scanned documents is easier than ever.

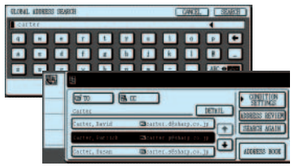


Speedy Duplex Scanning

With the 50-sheet DSPF, you can scan both sides of a page at once. This speed and simplicity lets you quickly scan two-sided originals at up to 60 pages per minute (Standard mode).

LDAP Compatibility for Network Scanning

Built-in **LDAP** (lightweight directory access protocol) support eliminates the need to enter or register an entire e-mail address. Simply enter the first few letters of the recipient's name and the AR-M351U/N displays a list of possible matches from names and e-mail addresses on your company's LDAP server. This feature saves precious time and lets you avoid errors when typing e-mail addresses. After searching, selected addresses can be stored to the AR-M351U/N's address book.



LDAP screen

Internet Faxing for Saving Time and Costs

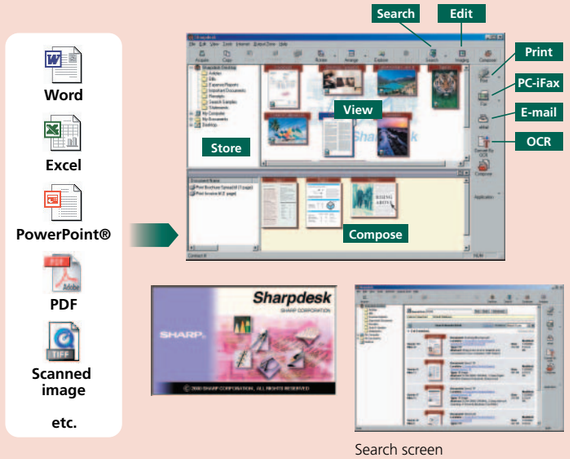
Save time and money by faxing over the Internet. The **Internet Fax** function sends and receives faxes faster and at a lower cost than conventional phone line faxing, while the **PC-iFax** function allows you to send a document created on your PC directly to a recipient's fax machine via the Internet while retaining original document quality.

Sharpdesk™

Document Management on Your PC

Sharp's original document management software, Sharpdesk™, lets you manage documents in over 200 file formats in a single application right on your desktop, making it possible to integrate scanned paper-based documents and a variety of files created in popular applications without having to launch application software for every file. It allows you to organise, edit, search, and distribute your documents, all with simple drag-and-drop operation.

- Intuitive desktop display features **thumbnail** viewing
- Sharpdesk Imaging provides **annotation** tools for paper-free proofreading
- Sharpdesk **Composer** combines different types of files into a single document
- **Optical Character Recognition** converts documents into editable text files
- **Output zone** distributes files to e-mail, printers, and other applications
- **File search** allows searching by file name, keyword, or thumbnail (available on Sharpdesk™ versions 3.0 and later)



Search screen

With Sharpdesk™, you can take any job saved on the AR-M351U/N's hard disk and import it as an image file to your PC desktop for reuse later.

DOCUMENT FILING

Boost Workflow Efficiency with the AR-M351U/N's Hard Disk

Don't just get a machine that makes copies; get a machine that offers a solution for total office document management. With the Document Filing function, you can store documents and previous job data on the AR-M351U/N's hard disk for convenient management or reuse at any time.

Document Filing

Document Management on the Hard Disk

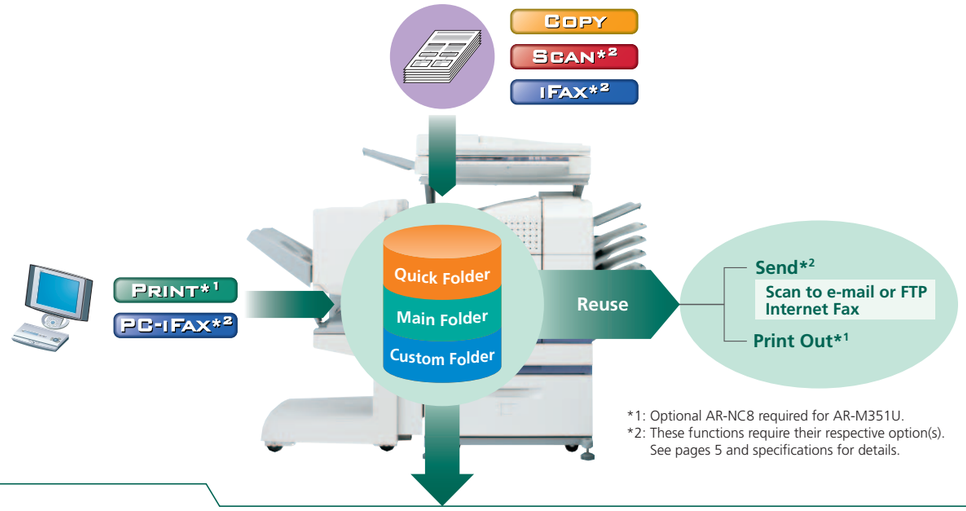
You can save processed job data in designated folders on the AR-M351U/N's hard disk, making it easy to quickly recall saved documents or jobs for printing and sending at a later time. For example, recently completed print runs can be repeated without recreating the job, thus saving on processing time and user intervention. This contributes greatly to efficient sharing and distribution of information in your business operations.

Easy Access to Stored Files

Documents that are stored on the hard disk can be quickly searched and accessed from the front panel display or through a Web page.

Search results

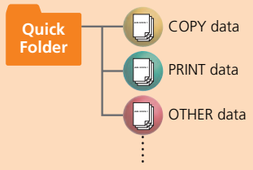
Web access screen



*1: Optional AR-NC8 required for AR-M351U.
*2: These functions require their respective option(s). See pages 5 and specifications for details.

Quick Filing with Temporary Storage

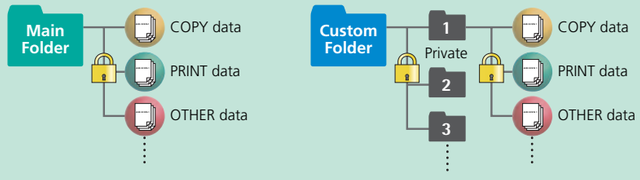
Up to 10,000 pages*1 that have been copied, printed, scanned, or faxed (iFax/PC-iFax)*2 can be stored by job on the hard disk in up to 1,000 Quick Folders. You can reuse saved data with simple operation without having to reload or rescan the original.



Advanced Filing Function

Up to 20,000 pages*1 that have been copied, printed, scanned, or faxed (iFax/PC-iFax)*2 can be stored by job on the hard disk in up to 3,000 folders with customised names and locations. Enhanced security features require users to enter a 5-digit PIN code to access secure folders, protecting your sensitive data. Storage options include:

- Main Folder - Processed files can be stored by user name in the main public folder and shared across the workgroup. Any file name and a PIN code can be assigned to each saved job.
- Custom Folder - Up to 500 private folders (named as desired) can be created within the Custom Folder. When saving a file in a private folder, any file name can be assigned. A PIN code can be applied to both private folders and files.



*1: Measured using Sharp's standard chart (A4 with 6% coverage).
*2: For iFax/PC-iFax jobs, only transmitted data (not received faxes) can be saved in the Document Filing function.

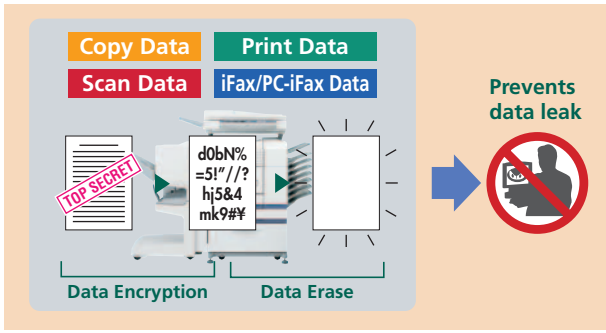
DOCUMENT SECURITY

Sharp's Layered Security Approach Protects Your Business at Every Level

With multiple levels of network and data security to restrict access to electronic documents and ensure that unauthorised personnel cannot get hold of valuable data, users have peace of mind knowing they can safely copy, print, and scan documents in any business environment.

Data Security Kit

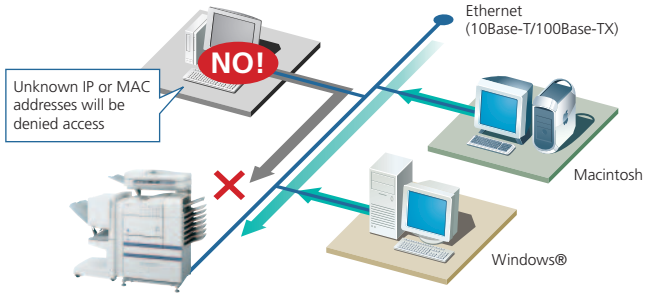
Digital copier/printers or multifunction products can retain hundreds of pages of confidential information from previous jobs on their hard disk or internal memory. To prevent these sensitive records from being recovered by unauthorised persons, the AR-M351U/N can be equipped with the optional Data Security Kit, which automatically **encrypts and erases** the data generated for each job.



Secure Print Server Card

The AR-M351U/N's **IP/MAC address filtering** function provides highly secure operation by restricting access to the AR-M351U/N on your office network. Only PCs that have either their IP address or MAC (media access control) address registered are allowed to use the AR-M351U/N. Attempted access from an unknown IP or MAC address will be denied, preventing unauthorised use.

The **network port/protocol management** function makes it easy to disable unnecessary protocols and vulnerable ports, such as Telnet, JCP, and RARP, to eliminate the threat of unauthorised use, password leakage, and unlawful IP addresses. Thus, the AR-M351U/N greatly reduces the risk of both internal and external threats.



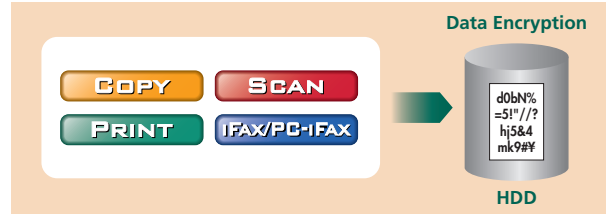
User Authentication for Network Scanning

To prevent unauthorised use of network scanning, including using the LDAP function, the AR-M351U/N supports user authentication, which requires users to log in to the machine before performing any network scanning operations.

User authentication

Secure Data Storage for Document Filing

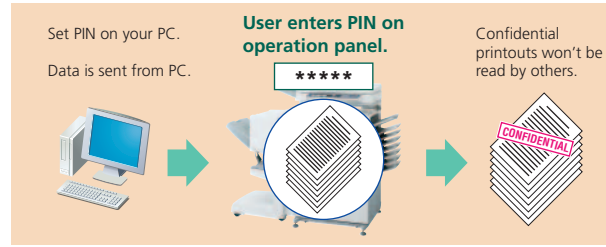
With the Data Security Kit installed, all data that goes through the AR-M351U/N's hard disk is **encrypted**. Combined with the PIN codes in the Advanced Filing function (see page 6), this system ensures solid security to protect your important business information.



Print Hold and Confidential Print

To keep others from seeing confidential documents as they are being printed out, the AR-M351U/N's **Print Hold** function stores print data on internal memory* and withholds output until the user executes a print command from the operation panel. For added security, the **Confidential Print** function requires the user to enter in a PIN (personal identification number) at the machine before printing can begin.

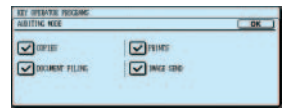
*On the AR-M351U, data is saved to printer memory, and on the AR-M351N or AR-NC8-equipped AR-M351U, data is saved to the hard disk.



Set PIN on your PC.
Data is sent from PC.
User enters PIN on operation panel.
*****
Confidential printouts won't be read by others.
CONFIDENTIAL

Auditing Mode

The auditing mode can be set individually for each function (copy, print, scan, and document filing), so you can keep track of and control the amount of use by employee or department. Limitations can be set for each account and each function. Settings can be made from the operation panel or through a Web page. Plus, a 5-digit password ensures that only authorised users access the operation panel and use the AR-M351U/N.



Auditing mode selection on operation panel

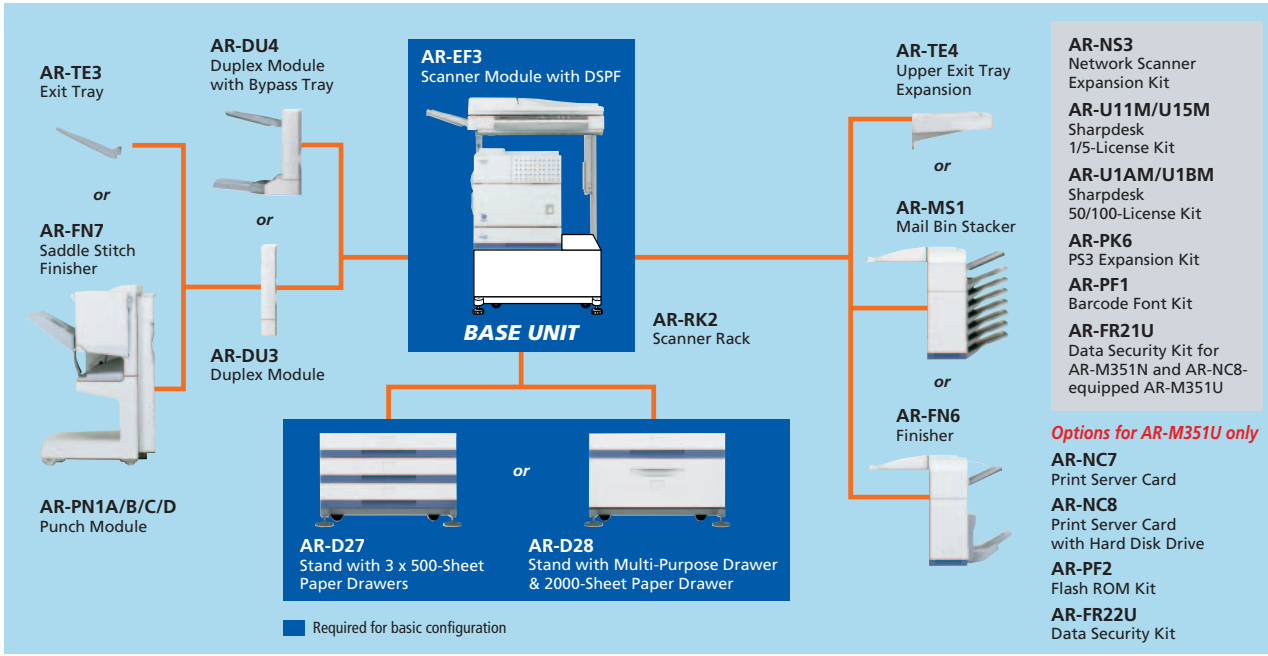
SYSTEM CONFIGURATION

Customisable to Meet Various Office Needs

System Configuration



Specifications for Options

AR-EF3 Scanner Module with DSPF

Acceptable original size	A3 to A5 (11" x 17" to 5 1/2" x 8 1/2")
Original capacity	50 sheets (A4, 80 g/m²; 30 sheets B4 or larger)
Scanning speed (max.*)	Two-sided: 60 pages/min., one-sided: 37 pages/min.
Paper weight	50 to 128 g/m²

*A4 (8 1/2" x 11") or smaller, in Standard mode.

AR-DU3 Duplex Module

Paper size	A3 to A5R (11" x 17" to 5 1/2" x 8 1/2R")
Paper weight	60 to 105 g/m²
Tray capacity	100 sheets (A4, 80 g/m²)

AR-DU4 Duplex Module with Bypass Tray

Duplex module	Paper size	A3 to A5R (11" x 17" to 5 1/2" x 8 1/2R")
	Paper weight	60 to 105 g/m²
	Tray capacity	100 sheets (A4, 80 g/m²)
Bypass tray	Paper size	A3 to A5R (11" x 17" to 5 1/2" x 8 1/2R")
	Paper weight	52 to 205 g/m²
	Paper capacity	100 sheets (A4, 80 g/m²)

AR-FN7 Saddle Stitch Finisher

Offset tray capacity	1,000 sheets (A4, 80 g/m²)
Saddle stitch tray capacity	100 sheets
Paper size	A3 to A5R (11" x 17" to 5 1/2" x 8 1/2R")
Paper size for stapling	A3 to B5, 8 1/2" x 13" (11" x 17" to 8 1/2" x 11"R)
Stapling capacity	Max. 50 sheets
Staple position	3 locations (front, rear, or both)

Punch Modules for the AR-FN7

Model name*	AR-PN1A	AR-PN1B	AR-PN1C	AR-PN1D**
Number of holes	2	2 or 3	4	4
Paper weight	60 to 256 g/m²			

*Multiple punch modules cannot be installed at the same time. Some models may not be available in some regions.
**Two or three holes can be punched depending on paper size.

AR-FN6 Finisher

Offset tray	Paper capacity	750 sheets (A4, 80 g/m²)
	Paper size	A4 to B5 (8 1/2" x 11" to 7 1/4" x 10 1/2")
Paper size for stapling		A4, B5 (8 1/2" x 11")
Stapling capacity		Max. 30 sheets
Staple position		3 locations (front, rear, or both)

AR-MS1 Mail Bin Stacker

Number of trays		One top tray and seven mail bins
Tray capacity	Top tray	250 sheets (A4, 80 g/m²)
	Mail bins	100 sheets each (A4, 80 g/m²)

AR-D27 Stand with 3 x 500-Sheet Paper Drawers

Upper tray	Paper size	A3 to A5R (11" x 17" to 5 1/2" x 8 1/2R"), envelope (COM-10, Monarch, DL, C5, ISO B5)
	Paper capacity	500 sheets, 40 envelopes
Middle/ lower tray	Paper size	A3 to B5R (11" x 17" to 7 1/4" x 10 1/2R")
	Paper capacity	500 sheets each

AR-D28 Stand with Multi-Purpose Drawer & 2000-Sheet Paper Drawer

Upper tray	Paper size	A3 to A5R (11" x 17" to 5 1/2" x 8 1/2R"), envelope (COM-10, Monarch, DL, C5, ISO B5)
	Paper capacity	500 sheets, 40 envelopes
Lower tray	Paper size	A4 (8 1/2" x 11")
	Paper capacity	2000 sheets (800 + 1200 sheets)

SPECIFICATIONS (tentative)

General

Type	Console
Engine speed	Max. 35 cpm/ppm (A4, 8 1/2" x 11")
Paper size	Max. A3 (11" x 17"), min. A5R (5 1/2" x 8 1/2R")
Paper capacity	Standard: 500 sheets, maximum: 3,100 sheets
Warm-up time	Less than 80 sec.
First copy time*1	4.9 sec. (document glass), 6.0 sec. (DSPF)
Memory	Standard 128MB, max. 384MB, 40GB HDD*2
Power requirements	Rated local AC voltage ±10%, 50/60 Hz
Power consumption (max.)	1.85 kW (200 to 240V), 1.44 kW (100 to 127V)
Dimensions (W x D x H)*3	824 x 665 x 1,127 mm (32 7/16" x 26 11/64" x 44 23/64")
Weight*3	Approx. 100 kg (220 lbs.) including developer

Copier

Original paper size	Max. A3 (11" x 17")
Continuous copy	Max. 999 copies
Resolution	Write: 600 x 600 dpi
Gradation	2 levels
Zoom range	25% to 400% (25% to 200% using DSPF) in 1% increments
Preset copy ratios	AB: 10 ratios (5R/5E), inch: 8 ratios (4R/4E)
Features*4	Auto paper selection, auto magnification selection, XY zoom, paper type selection, auto tray switching, rotation copy, electronic sorting, copy auditing (500 accounts), pre-heat/auto power shut-off modes, network tandem copy, book copy, margin shift, edge/centre erase, dual page copy, cover/transparency insertion, multi-shot (4-in-1, 2-in-1), card shot, pamphlet copy, 2-sided copy orientation change, job build, B/W reverse, mirror image, duplex copy, toner save mode, reserved copy, rotation sort, job programme, irregular original/paper size input, stamps (date, character, page)

Network Scanner (optional AR-NS3 required*5)

Scan method	TWAIN compliant (push out method)
Resolution	200 x 200, 300 x 300, 400 x 400, 600 x 600 dpi
File formats	PDF, TIFF, TIFF-F, TIFF-FX
Scanner utilities	Sharpdesk™ 3.1
Features	Scan to E-mail/Desktop/FTP Server/HDD, LDAP compatibility, e-mail/file name entry from control panel, Internet fax, PC-iFax transmission, job build

Document Filing (optional AR-NC8 required for AR-M351U)

Document filing capacity	24GB, 30,000 pages*6 or 4,000 files (8GB for quick folder for 10,000 pages*6 or 1,000 files, 16GB for main and custom folders for 20,000 pages*6 or 3,000 files)
Stored jobs	Copy, print, scan*7
Storage folders	Quick folder, main folder, custom folder (max. 500 folders)
Confidential storage	Yes (with ID and PIN code) for main and custom folders

Network Printer (optional AR-NC7 or NC8 required for AR-M351U)

Resolution	600 dpi, 1200 dpi equivalent (with smoothing)
Interface	IEEE 1284, USB 2.0 (Windows® 2000/XP only, used as USB 1.1 for Windows® 98/98SES/Me/2000/XP), 10Base-T/100Base-TX (RJ45 Ethernet; AR-M351N standard, AR-M351U optional)
Supported OS*8	Windows NT® 4.0, Windows® 2000, Windows® 2000 Server, Windows Server™ 2003, Windows® XP, Windows® 95/98/Me, Mac OS 8.6 to 9.2.2, Mac OS X 10.1.5, 10.2 to 10.2.8 (except 10.2.2), 10.3 to 10.3.3
Network protocols*8	TCP/IP, IPX/SPX (Netware), NetBEUI, EtherTalk (AppleTalk)
Printing protocols	LPR, Raw TCP (port 9100), POP3 (e-mail printing), HTTP, Novell Printserver application with NDS and Bindery, FTP for downloading print files, EtherTalk printing, IPP
PDL emulation	Standard: PCL 6/5e Option*9: PS3 emulation
Available fonts	80 fonts for PCL, 136 fonts for PS3 emulation*9
Features*4 *10	Network tandem print, RIP Once/Print Many, job retention (print hold, proof print, confidential print), direct PDF/TIFF printing, carbon copy print, duplex print, printer administration utility & status monitor, IP/MAC address filtering and port/protocol management, font and form download, pamphlet style, binding edge, N-up (2/4/6/8/9/16), paper/output tray selection, cover/chapter insertion, transparency interleave, fit to page, watermarks, offset output, form overlay, print auditing, auto configuration, barcode compatibility

*1: When using document glass and feeding A4 (8 1/2" x 11") sheets from top paper tray.
*2: Option for AR-M351U.
*3: Dimensions and weight include AR-EF3, AR-RK2, and AR-D27.
*4: Some features require option(s).
*5: Optional AR-NC7 or AR-NC8 also required for AR-M351U.
*6: Measured using Sharp's standard chart (A4 at 6% coverage).
*7: AR-NS3 required.
*8: Optional AR-NC7 or AR-NC8 and AR-PK6 required for Mac OS and EtherTalk.
*9: AR-PK6 required.
*10: Some features are not available according to the printer driver used.
